CODE OF CONDUCT

BELIEF STATEMENT

Schools are a reflection of the community in which they exist. Ichabod Crane Central School should be a place where children and adults work and learn together in an atmosphere of mutual respect and with a clear understanding of each person's rights and responsibilities. As members of the school community, students, teachers, administrators, other school officials, parents and visitors have rights, which must be balanced by the responsibilities on which these rights are based. While students at Ichabod Crane Central School have the right to an education, this right is qualified by eligibility requirements and by performance requirements developed for the benefit of all students. Although the school must be concerned with the welfare of each individual, it must also be concerned with the welfare of the entire school community. While the school is a social institution, its primary function remains the education of its students. Good behavior will be encouraged through positive reinforcement and the positive and supportive example of school employees and parents. However, when a behavior at school demonstrates the individual is not fulfilling his/her responsibilities or exercising his/her rights in an appropriate manner, the school will respond according to its Code of Conduct and policy on discipline. The District is committed to the consistent enforcement of the procedures governing discipline. Its policy is a reflection of the goals governing the Pro Children Act which ensures a tobacco-free environment, the National Educational Goals 2000 which prohibits violence in the schools, and the Safe and Drug Free Schools Act dedicated to prevent the illegal use of drugs and alcohol in the schools and the assurance of behaviors which cultivate respect for individual differences. Individuals who violate these federal or state laws will be reported to the appropriate legal authorities.

CODE OF CONDUCT REGULATIONS

**I. NEW YORK CODES RULES AND REGULATIONS
(NYSCRR SECTION 100.2 POLICY ON SCHOOL CONDUCT AND

When a decision is made to propose suspension of a student, pursuant to the Section 3214 (3), those in parental relation must be notified in writing within 24 hours of the decision. Telephone contact should also occur where possible. The notice shall inform those in parental relation of their right to an immediate informal conference with the principal. This conference must take place prior to the suspension unless the student’s presence in the school poses a continuing danger to persons or property or an ongoing threat of disruption to the academic process, in which case the conference will take place as soon after the suspension as possible.

CODE OF CONDUCT K-12

VI. DISCIPLINE CODE FOR STUDENT BEHAVIOR

- There are a variety of disciplinary responses made to misbehaviors at the Kindergarten - Grade 12 level. Classroom misbehavior should typically be dealt with directly by the teacher or staff member in the setting where the infraction occurred. Teachers and staff are encouraged to make connections between the child's misbehavior and other more appropriate choices or alternatives. Parental involvement is seen as an essential component in the development of appropriate school behaviors.

However, there are times when a child will do something both unexpected and disruptive in the educational setting, which must be dealt with immediately by an administrator. If any student (K –12) threatens another student with physical harm, the administrator will follow the following protocol:

- The "threat of harm" will be assessed by the administration.
 - Parents will be appropriately contacted.
 - Code of Conduct will be enforced.
1. In an effort to ensure a safe environment for all students, from time to time, the District may allow law enforcement entities to search the middle and high school as well as the high school parking lot. Such actions may include, but are not limited to, the use of bio-sensor K-9 units. When possible, the School Resource Deputy will assist in these searches.
 2. Upon the required degree of suspicion, all cars parked on District premises by students are subject to search by District administrators or law enforcement.

The following pages contain descriptions of common disciplinary infractions and possible responses and disciplinary procedures.

VII. BULLYING, CYBERBULLYING, HARASSMENT, OR INTIMIDATION: DIGNITY FOR ALL STUDENTS ACT

A. Prohibition of Bullying

The Board of Education is committed to providing an educational and working environment that promotes respect, dignity and equality. The Board recognizes that discrimination, such as harassment, hazing and bullying, are detrimental to student learning and achievement. These behaviors interfere with the mission of the district to educate its students and disrupt the operation of the schools. Such behavior affects not only the students who are its targets but also those individuals who participate and witness such acts. To this end, the Board condemns and strictly prohibits all forms of discrimination on school grounds, school buses, bus stops and at all school-sponsored activities, programs and events. Additionally, it is the policy of the Ichabod Crane School District to fully comply with the Dignity for All Students' Act and to prohibit bullying, cyberbullying, harassment, or intimidation of any kind on district property, on district transportation, at school-sponsored events or functions or by use of electronic technology either on or off school premises, where the conduct substantially disrupts the school environment and which creates or can be reasonably expected to create a material and substantial interference with the requirements of appropriate discipline in the operation of the school or impinge on the rights of other students. Such behaviors are prohibited and may be subject to disciplinary consequences. It is the policy of the Ichabod Crane School District to prohibit reprisal or retaliation against any individual who reports acts of bullying, cyberbullying, harassment, or intimidation, or who are victims, witnesses, bystanders, or others with reliable information about an act of bullying, cyberbullying, harassment, or intimidation. Any person who retaliates is subject to immediate disciplinary action up to and including suspension or a Superintendent Hearing.

Underlying this Code of Conduct is the philosophy that all members of the Ichabod Crane school community be provided a safe haven for learning and growing, a secure, orderly and nurturing environment in which to achieve their full potential.

In accordance with the Dignity for All Students' Act, "Dignity Act Coordinators" (DACs) shall be annually appointed by the Board of Education with one DAC appointed per school building. The DACs shall be persons thoroughly trained in methods to respond to human relations in the areas of: race, color, weight, national origin, ethnic group, religion, religious practice, disability, sexual orientation, gender and sex. DACs shall be trained to appropriately consult staff and students and to provide an initial response to reports of harassment or discrimination.

Students, parents, and staff are expected to report incidents of discrimination, harassment and bullying to a teacher, principal, DAC or another staff member. Material incidents of harassment or discrimination on school grounds or at school functions shall be reported to the NYS Department of Education as required by the Commissioner of Education.

Acts of harassment or discrimination by students are addressed in this Code of Conduct in accordance with the Responses to Student Behaviors, set forth subsequently. The Dignity for All Students' Act also requires that remedies focus on discerning and correcting the reasons why discrimination and harassment occurred. Remedial measures to correct the behavior may include: behavior assessment or evaluation; establishment of behavior management plans,

where appropriate; student counseling; parent conferences; relevant learning; peer support groups; other supportive interventions.

The harassing behavior may be based on any characteristic, including but not limited to a person's actual or perceived: race, color, weight, national origin, ethnic group, religion, religious practice, disability, sex, sexual orientation, gender (including gender identity and expression), or food allergy. For the purpose of this definition the term 'threats, intimidation or abuse' shall include verbal and non-verbal actions.

Students or parents should make District staff aware of any situation that may be bullying or harassment.

C. Prevention

The school setting provides an opportunity to teach children, and emphasize among staff, that cooperation with and respect for others is a key district value. A program geared to prevention is designed not only to decrease incidents of bullying but to help students build more supportive relationships with one another by integrating the bullying prevention program into classroom instruction. Staff members and students will be sensitized, through district-wide professional

development and instruction, to the warning signs of bullying, as well as to their responsibility to become actively involved in the prevention of bullying before overt acts occur.

Elements of this program may include:

- Parental Communications: Letters, Phone Calls, Emails

Intervention

Intervention by adults and bystanders is an important step in preventing escalation and resolving issues at the earliest stages. Intervention will emphasize education and skill building.

Successful intervention may involve remediation. Remedial responses to bullying include measures designed to correct the problem behavior, prevent another occurrence of the behavior and protect the target. Remediation may be targeted to the individuals(s) involved in the bullying behavior or environmental approaches which are targeted to the school or district as a whole.

In addition, intervention will focus upon the safety of the target. Staff is expected, when aware of bullying, to report it in accordance with this policy, refer the student to designated resources for assistance, or to intervene in accordance with this policy and regulation.

Provisions for students who do not feel safe at school

The Board acknowledges that, notwithstanding actions taken by district staff, intervention may require a specific coordinated approach if the child does not feel safe at school. Students who do not feel safe at school are limited in their capacity to learn and reach their academic potential. Staff, when aware of bullying, should determine if accommodations are needed in order to help ensure the safety of the student and bring this to the attention of the building administration and/or DAC. The building principal, other appropriate staff, the student and the student's parents will work together to define and implement any needed accommodations.

The district recognizes that there is a need to balance accommodations which enhance student safety against the potential to further stigmatize the targeted student. Therefore, each case will be handled individually. The student, parent/guardian, and school administration will collaborate to establish safety provisions that best meet the needs of the targeted student. Follow-up discussion and/or meetings will be scheduled, as needed, to ensure that safety concerns have been adequately addressed and to determine when and if accommodations need to be changed or discontinued.

Disciplinary Consequences/Remediation

While the focus of this policy is on prevention, acts of bullying may still occur. When complaints are received an investigation will be conducted by district personnel. When the investigation determines that bullying has occurred, offenders will be given the clear message that their actions are wrong and the behavior must improve. Student offenders will receive guidance in making positive choices in their relationships with others. If appropriate, disciplinary action that is measured, balanced and age appropriate will be taken by the administration in accordance with the Code of Conduct. If the behavior rises to the level of criminal activity, law enforcement will be contacted. If necessary a Student Safety Plan will be created for a student who has been involved in an incident.

Reporting Complaints

In order for the Board to effectively enforce this policy and to take prompt corrective measures, it is essential that all victims of bullying, cyberbullying, harassment, or intimidation, and persons with knowledge of such report the incident immediately. District personnel will promptly investigate all complaints, formal or informal, verbal or written. To the extent possible, all complaints will be treated in a confidential manner. Limited disclosure may be necessary for a thorough investigation. Forms for reporting incidents of bullying, cyberbullying, harassment, or intimidation are located in the Main Office of each school building and on our District website at www.ichabodcrane.org.

IX. ICHABOD CRANE HIGH SCHOOL

THE DISCIPLINARY SYSTEM: AN EXPLANATION

The High School's Disciplinary System is composed of rules, which seek to make students' expected behavior clear, concrete, and reasonable. When students break the rules, the school's response is varied, depending upon the severity of the infraction and other relevant factors. In all cases where a referral is written, the students will be asked to sign the form. If a student declines to sign the form, the adult writing the referral will indicate this on the form. The student will receive a copy of the form. One copy will be retained by the faculty or staff member, one will be sent to the student's legal guardian and the original will be placed in the student's discipline file. For all infractions, demerits may be assigned.

DEFINITIONS:

LUNCH DETENTIONS: Administrators may assign one or more days of lunch period detention in the In-School Suspension Room or other designated room as a response to disciplinary infractions.

TEACHER ASSIGNED DETENTION: Teachers may assign students to a detention with them providing reasonable notice is given. Failure to report to a teacher-assigned detention will result in additional disciplinary action as prescribed in the Discipline Policy.

AFTER-SCHOOL DETENTIONS: Administrators may assign students to detention either with them or with a designee providing reasonable notice is given. Failure to serve the detention will result in additional consequences.

DEMERITS: Demerits are points, which help to quantify a student's inappropriate behavior. Demerits are assigned for violations of the disciplinary code. The number of demerits assigned for any single infraction varies depending on the infraction. When a student accumulates fifteen (15) demerits or discipline infractions an Informal Disciplinary Hearing may be held. Parents/guardians, the student and an administrator will participate in the hearing. The purpose of this hearing is to involve parents in an attempt to alter the behavior pattern of the student. Depending on the circumstances, which resulted in the hearing, additional disciplinary action may be taken. When a student reaches thirty (30) demerits or discipline infractions and all other options have been exhausted, he/she may be scheduled for a Formal Disciplinary Hearing with the Superintendent of Schools. Depending on the circumstances, which resulted in the formal hearing, additional disciplinary action may be taken. The action will be more severe than that for any single infraction and may include long-term suspension from regular instruction.

IN-SCHOOL SUSPENSION: In-School Suspension (ISS) is assigned, in some cases, as an alternative to an out-of-school suspension. It is also assigned as an early intervention as a student begins to accumulate demerits or as an intervention when a student is a discipline problem in a particular class. Students will be expected to complete class assignments forwarded by teachers.

OUT-OF-SCHOOL SUSPENSION: Suspension from school denies a student participation and attendance at all school activities for a specific period of time. Immediate suspensions by the building principal of up to five (5) days will occur if a student's action endangers the health, safety, or welfare of others. Students may be suspended out-of-school for a period of time as a result of either a formal or informal hearing.

COMMUNITY SERVICE: Students may be assigned to work in the High School or some other school building during the school day or after school instead of assigning them to out-of-school suspension. They could possibly push a floor mop, wash boards, clean the cafeteria, or a school bus, etc. Parent permission is required for this alternative consequence.

TEACHER REMOVAL FROM CLASS:

Removal may take place when a student's behavior is disruptive of the educational process or interferes with the teacher's authority over the classroom. The student will be sent to a supervised area.

PEER MEDIATION

Peer Mediation is a proven successful program that allows the two sides of a student disagreement to sit down and discuss and resolve their differences. We encourage students to use this program as an alternative to arguing or fighting. Students may refer themselves or their friends for mediation.

RESTORATIVE JUSTICE

Restorative Justice is a prescribed meeting method which seeks to repair the harm done by wrongdoing through face-to-face meetings with those who have been directly impacted. The goal of a restorative justice meeting is to hold offending students accountable for their actions, while also addressing the needs, fears and concerns of victims and the wider school community.

X. STUDENT RIGHT TO PROCEDURAL DUE PROCESS

A. Student Right to Procedural Due Process – Generally

Students will be afforded procedural due process in all instances where student behavior in violation of this Code of Conduct may result in the imposition of a school response.

Generally, such due process shall include the following:

- a. The student must be given notice verbally or in writing of the specific behavior in question.
- b. The student must be given the opportunity to appear informally before the person authorized to impose a school response to the alleged behavior in order to discuss the allegation. The student must be given an opportunity to address the allegation.
- c. After consideration of all the facts, the person authorized to impose a school response to the alleged behavior shall determine whether a school response is in order. If so, the response shall be consistent with the range of responses prescribed for the inappropriate behavior in the Code of Conduct. In determining the school response, the following factors shall be taken into consideration: any mitigating or aggravating circumstances surrounding the behavior; the student's prior record of conduct; the student's age; the student's intent; and other information deemed pertinent.

B. Student right to Procedural Due Process, Removal from the Classroom

A teacher may remove a student from the classroom for disciplinary and non-disciplinary reasons. Non-disciplinary removal would include a visit to the principal's office, guidance or counselor's office to discuss inappropriate behavior or a "time-out" to enable a student to regain control or composure.

Disciplinary removal will constitute any removal of a disruptive student from the classroom in excess of one school day. A student removed from a classroom for disciplinary reasons shall be placed in an alternative classroom where educational programming shall be provided. A teacher may remove a disruptive student (6 –12) from his/her classroom for up to two (2) days. In K-5, a student can be removed for a time period not to exceed 60 minutes. In the event a teacher wishes to remove a student from the classroom the student shall be afforded procedural due process as follows:

1. The teacher must inform the student that s/he is going to be removed from the classroom.
2. The teacher must specifically explain to the student why s/he is to be removed.
3. The teacher must give the student an opportunity to explain or respond.
4. The teacher may then decide to remove the student from the classroom.

However, a teacher may remove a student who poses a danger or ongoing threat of disruption from his/her classroom immediately. In the event of such removal, the following procedures must be followed within 24 hours of the removal:

1. The teacher must explain to the student why s/he was removed from the classroom.
2. The teacher must give the student the opportunity to provide an explanation of the incident(s) that led to the removal.

When a teacher removes a student from the classroom, the teacher must appropriately notify the building principal. The student must be sent to the principal's office or an alternative classroom specifically designated for the purpose of receiving students who have been removed from the class. The teacher must complete the District prescribed student removal form and provide it to the principal of the school as soon as possible but no later than the end of the school day.

As soon as possible and no later than 24 hours after the removal, the principal must provide telephonic and written notification to the student's parents or guardian of the removal and the circumstances that led to the removal. The notice must inform the parents of their right to request an informal meeting with the principal to discuss the reasons for the removal. Written notice must be by personal delivery, express mail, or some other means to reasonably ensure parental notification within 24 hours. If requested by the parents, the informal meeting must be held within 48 hours of the removal. If the parents agree, the meeting may be held at another mutually convenient time. The principal may require the teacher who removed the student from the classroom to be present at the informal conference with the parents.

A principal or designee may overturn a teacher's removal of a student from the classroom upon a finding that:

1. the charges against the student are not supported by substantial evidence;
2. the removal is in violation of the law or the District's policies, regulations or procedures; or
3. the conduct warrants suspension from school pursuant to a superintendent's hearing (Education Law S3214) and such suspension will be imposed.

Such determination may be made at any time from the principal's receipt of the student removal form to the close of the business day following the 48-hour period for the informal conference. A disruptive student removed from the classroom by a teacher shall be provided continued educational programming and activities until allowed back into the classroom.

The District shall prescribe forms upon which each teacher shall maintain a record of all cases of removal of a student from his/her classroom and upon which each principal shall maintain a record of each removal of a student from a classroom in the school for which s/he is responsible.

*Students with disabilities, please see Section XII.

C. Student Right to Procedural Due Process, Suspension from School

The Superintendent or a principal may suspend a student from school for a period not to exceed five (5) days. In the event the superintendent or a principal proposes to suspend a student for a period not to exceed five (5) days, the student shall be afforded procedural due process follows:

1. The student must be verbally notified.

2. If the student denies the allegations, s/he must be provided with an explanation of the rationale for the suspension.
3. As soon as possible and within 24 hours of the decision to propose suspension, the principal/superintendent must provide telephonic and written notification to the student's parents or guardian of the proposed suspension and the circumstances that led to the decision. The notice must inform the parents of the specific charges against the student and a description of the incident that led to the charges. It shall also provide notification of their right to request an informal meeting with the principal to discuss the reasons for the suspension. Written notice must be by personal delivery, express mail or some other means to reasonably ensure parental notification within 24 hours.
4. If requested by the parents, the informal meeting must be held within 48 hours of the removal. If the parents agree, the meeting may be held at another mutually convenient time. The principal/superintendent may require the teacher who removed the student from the classroom to be present at the informal conference with the parents. The parents shall have the opportunity to ask questions of complaining witnesses at such informal conference subject to procedures established by the principal/superintendent.
5. The student shall not be suspended until after the informal conference unless the student poses a continuing danger to persons or property or an ongoing threat of disruption to the educational process. In such case, the notice and the informal conference shall take place as soon as is reasonably possible after the suspension is imposed.
6. After the conference, the parents will be provided with a written decision on the matter.
7. The parents may appeal such decision to the superintendent of schools within five (5) business days, however, only for alleged procedural errors.

In the event the school response to student behavior may result in suspension of the student for a period in excess of five (5) school days, the student and his or her parents must be given an opportunity for a hearing on reasonable notice. The notice shall advise the student of the behavior that gives rise to the proceeding. Parents may attend the hearing and the student has a right to be represented by an attorney, to testify on his or her own behalf, to present witnesses and evidence and to cross-examine witnesses against the student. The Superintendent of Schools may preside at the hearing or designate a hearing officer who will render a recommendation to the Superintendent, which s/he is free to accept or reject in whole or in part. The decision of the Superintendent in such matters may be appealed pursuant to section 3214 of Education Law. Only upon a final decision of the board of education may the parents appeal a decision to the Commissioner of Education.

XI. STUDENT SEARCHES AND POLICE INTERROGATION OF STUDENTS

A. Student and Locker Searches

The Board of Education authorizes the Superintendent of Schools, building principals and assistant principals and their designees (in the presence of one or more witnesses) to conduct searches of students and their possessions (to include vehicles) for illegal matter or matter which otherwise constitutes a threat of the health, safety, welfare or morals of students attending our schools.

In authorizing such searches, the Board acknowledges both state and federal constitutional rights which are applicable to personal searches of students and searches of their possessions (e.g., pocket contents, book bags, handbags, vehicles, etc.) Such searches shall be conducted when necessitated by reasonable suspicion.

Students shall be informed by the administration that school lockers are not their private property but the property of the district and that as such may be opened and subject to inspection by school officials.

B. Interrogation of Students by Police

It is the policy of the district to cooperate with law enforcement agencies. The police may enter the schools of the district at any time. Police may interrogate individual students if a crime has been committed or there is a warrant for arrest or search, or if they have been invited by school officials to do so. Parents will be contacted prior to such interrogation unless the situation is of an emergency nature.

When police have properly entered the school and express a desire to interview students in the school, the students must be afforded the same rights they have outside the school. They must be informed of their legal rights, may remain silent if they so desire, may request the presence of an attorney and must be protected from coercion and illegal restraint. An administrator, the School Resource Deputy and/or parent shall be present for such interrogations. Within the framework of their legal rights, students have the responsibility to cooperate with the police.

XII. DISCIPLINE PROCEDURES FOR STUDENTS WITH DISABILITIES

Discipline is the positive direction of behavior toward established standards of conduct, fully understood and based on reason, judgment, and the rights of others. Ideal discipline is self-directed and self-controlled. The school, community, and parents share the responsibility for helping the student develop self-discipline. Discipline is necessary to insure an orderly environment in which each person may learn to his/her full capabilities in harmony with others. When self-control falters and self-discipline fails, disciplinary forces outside the individual must be imposed to protect the rights of others.

When there is a report that a student with a disability has violated the discipline code of the school which s/he attends, the principal or designee will conduct an investigation which may include a conference with the student, parent or guardian, teachers, other student service personnel, or others, as deemed appropriate for early identification and resolution of the suspected problem. The investigation shall be conducted according to the following guidelines:

- ◆ The student is given notice of the charges against him/her in enough detail to allow the student to understand the nature of the accusation. Support from special education personnel may be appropriate.
- ◆ The student is given an opportunity to admit to or deny the stated charges.
- ◆ School authorities may order a change in placement of a child with a disability in an appropriate interim alternative education setting, another setting, or suspension for not more than ten (10) days – whether or not the behavior was a manifestation of the child’s disability.
- ◆ Parents must be notified of the decision and all procedural safeguards no later than the date on which the decision to suspend.
- ◆ A manifestation meeting will take place for long-term suspensions over ten (10) days. At this meeting, the manifestation team will review the relationship between the child’s disability and the behavior that is the subject of the disciplinary action. This review is conducted by the IEP team and other qualified personnel to make this determination. If the discipline review of the relevant information regarding the behavior finds no manifestation, disciplinary procedures applicable to children without disabilities may be applied. If the behavior is a manifestation of the child’s disability, the IEP team may also determine that the student’s IEP needs to be modified to include a behavioral management plan, additional supports, or in appropriate circumstances, a change in educational placement.

If it is determined that the misconduct is unrelated to the student's handicapping condition, the administrator can determine the appropriate disciplinary action according to the building discipline code. Any disciplinary procedure should be consistent with the student's Individual Evaluation Plan (IEP) and legal rights.

If a disabled student's behavior is determined to be dangerous to him/herself or others, then the building administrator must take immediate and appropriate action, followed by immediate notification to the Committee on Special Education. If such action includes suspension of the student, all legal procedures must be followed.

XIII. CODE OF CONDUCT FOR TRANSPORTATION

Of paramount concern is the safe transport of students and the need to provide support to transportation personnel through consistent, fair and appropriate discipline whenever safety is compromised by the unsatisfactory behavior of students on the school buses. Just as the drivers have the responsibility of providing the safest possible ride for each student, the student in turn has the responsibility of ensuring the same by following the rules. All behaviors, which result in a referral, are considered distractions to the drivers.

There is an expectation that students, while riding the buses, either to or from school, extracurricular events or field trips will:

- ◆ Follow the instructions of the bus driver.
- ◆ Keep head and hands inside the bus.
- ◆ Observe crossing procedures of the driver when appropriate.
- ◆ Wait until the bus comes to a complete stop before attempting to enter or leave the bus or do not attempt to board bus once it is placed in motion.
- ◆ Remain seated on the bus, out of the aisles and facing forward, with feet on the floor.
- ◆ Enter and leave the bus in an orderly fashion.
- ◆ Keep track of personal belongings, books, lunches, et cetera.
- ◆ Respect the property of others, to include keeping the bus clean and not defacing, marking or littering on the bus.
- ◆ Behave in an orderly manner at the bus stop.
- ◆ Be on time at the bus stop.
- ◆ Ride the bus assigned unless issued a pass.
- ◆ Keep voices at a conversational level while the bus is in motion.
- ◆ Not smoke or ignite matches or lighters on the bus.
- ◆ Not use vapor pens or electronic cigarettes

Note: Volume 17 of the New York Code, Rules and Regulations specifically states, "Baggage, freight or other property shall not be carried in the aisle or so as to interfere with passenger seating space, safety or comfort." Additionally, aisles are to be unobstructed and emergency doors are to be maintained in a free operating condition. To ensure this, students may not bring large objects, including skis and skateboards on the bus. Large musical instruments require pre-approval and need to be secured if they cannot be held in the hands or on the laps of the passenger.

Each bus driver is responsible to prevent or stop unsafe acts of behavior, which would jeopardize the safe operation of the bus or safety of the children. Examples of methods, which may be used, include the assignment of seats or pulling the bus safely off the road until the unsafe condition is corrected. Drivers should notify the Transportation Supervisor should it become necessary for them to use extraordinary methods to control behavior on the bus.

TRANSPORTATION SUPERVISOR: Works with the driver, parents and administrators in devising and implementing effective means to curtail inappropriate and unsafe behavior on the buses.

ADMINISTRATOR: Thoroughly investigates reports of unsatisfactory behavior on the buses and takes appropriate disciplinary action in accordance with school board policy to ensure that the environment on the buses remains as safe as possible.

It is essential that all employees having responsibility for the safe transportation of our students are given a degree of authority commensurate with that responsibility and that each member of the District team works in unison toward the accomplishment of that goal.

DISCIPLINARY PROCEDURES

- ◆ For all infractions, the driver asks the students to immediately stop the unacceptable behavior.
- ◆ For LEVEL I infractions, when there is repetitive misbehavior and for all LEVEL II and III infractions, the driver documents the infraction on a bus referral report and turns it in to the transportation supervisor.
- ◆ For LEVEL I infractions, the transportation supervisor notifies the parent or guardian of the student and informs them that the referral will be retained at the Transportation Dept. This affords the parent/guardian an opportunity to rectify the problem without having documentation placed in the student’s file.
- ◆ For documentation of a subsequent LEVEL I referral or for both LEVEL II and LEVEL III referrals, the transportation supervisor will forward all applicable referrals to the building level administrator along with a recommendation.
- ◆ Building administrator takes action to include parent conferences, suspensions, notification of police or whatever subsequent action is deemed appropriate.

Drivers may request to meet with administrators should they feel that discipline action taken has not been successful.

PARENT INVOLVEMENT

Every effort is to be made to involve the student's parent or guardian when misbehavior occurs. The use of phone, written and conference communication is encouraged and to be used at the principal's discretion.

B. Transportation Discipline Procedures for Students with Disabilities

When there is a report that a student with a handicapping condition has violated the rules associated with bus transportation, the transportation supervisor, principal or designee will conduct an investigation which may include a conference with the student, other students, parents, service personnel, or others deemed appropriate for early identification and resolution of the suspected problem. The investigation shall be conducted according to the following guidelines:

- The student and parent are given notice of the charges against the student in enough detail to allow the student to understand the nature of the accusation.
- The student is given the opportunity to admit or deny the stated charges.
- In determining the appropriate disciplinary action, the administrator must consider whether the misconduct is related to the handicapping condition and review the IEP and consult with the Director of Special Education as appropriate.
- If it is determined that the misconduct is unrelated to the student's handicapping condition, the administrator/supervisor can determine the appropriate disciplinary action consistent with the transportation disciplinary matrix

1. As used in this section, corporal punishment is defined as the use of physical force for the purpose of punishing a pupil, except as otherwise provided in Subdivision 3.
2. No teacher, administrator, officer, employee or agent in the District shall use corporal punishment against a pupil.

This written complaint will be forwarded to the superintendent and/or the Board within seven (7) days. The administrator and/or Board shall investigate the complaint to determine whether an incident actually took place, and if so, to determine the identity of the person or persons who administered the punishment, the identity of the student or students punished, reasons for the action and any other relevant facts or circumstances. At a minimum, the investigation shall include a meeting with all parties involved, jointly or separately. A decision shall be rendered by the superintendent within five (5) school days of the close of the investigation with recommendations for action, if any. Copies of the decision shall be forwarded to the complainants and the board within seven (7) days.
