The Ichabod Crane Central School District anticipates conducting a construction project commencing on or about July 1, 2009. This project will be conducted at the Primary School and the Middle School located on 2910 Route 9, Valatie, NY. The project will consist of the following:

### Primary School:

Remove vinyl asbestos floor tile from corridors and replace with vinyl composite tile, remove damaged Cafetorium wood flooring and replace with new sheet flooring, replace conventional heating and ventilating systems with new systems and remove associated HVAC asbestos containing material (ACM) from pipe fittings and valves.

### Middle School:

Remove and replace HVAC controls for approximately 23 units to allow units to improve energy efficiencies and connect to central control system.

Pursuant to Education Commissioner's Regulation 155.5(d), the Ichabod Crane School District will provide a safe school environment throughout this project, including an update of the school emergency plan to reflect any temporary exits or procedures needed as a result of the construction work at the school facilities. Fire drills will be held to familiarize students and staff with any temporary exits. The construction area will be separated from occupied areas of the building, all construction workers will be required to wear photo identification badges, and noise levels will be kept to a minimum while the building is occupied. All applicable federal and State rules and regulations will be strictly adhered to throughout the length of this project.
