## Section I - District LEA Information

1. **What is the name of the district administrator responsible for entering the Instructional Technology Plan data?**  
   
   Jon Street

2. **What is the title of the district administrator responsible for entering the Instructional Technology Plan data?**  
   
   Director of Technology

For help with completing the plan, please visit 2018-2021 ITP Resources for Districts, contact your district's RIC, or email edtech@nysed.gov.
II. Strategic Technology Planning

1. What is the overall district mission?

The Ichabod Crane Central School District is dedicated to preparing students to become contributing members of society in an ever-changing world by valuing diversity; providing a safe environment; and promoting unique talents, a desire for life-long learning, a strong community spirit and Rider pride.

2. What is the vision statement that guides instructional technology use in the district?

The Ichabod Crane Central School District K-12 educational program will prepare students to be technologically literate individuals. With a focus on lifelong learning, our students will be able to make informed decisions about the role of technology in their lives. Students should have the opportunity to develop technology skills that support learning, personal productivity, and decision making in their daily lives.

The Ichabod Crane Central School District will provide the following:

• Technology-rich learning environments that promote learning by engaging, challenging, and nurturing diverse learners.
• Access to resources that support the educational environment, including access to the Internet and digital media.
• Opportunities to use technology for communication and collaboration through multimedia, virtual, and e-learning environments.
• Opportunities for faculty and staff to master technology to create and support the ethical, responsible, and innovative use of technology in the classroom and beyond.
• Apply technology solutions to achieve the districts mission, goals, and strategies.
• Encourage/support new initiatives and innovation as a dynamic, continuous process.
• Ensure that materials are available in multiple formats including but not limited to large print, braille, and audio as needed.
• Provide resources to support and facilitate student output such as voice to text software, augmentative communication devices, and environmental control devices.

3. List three goals that will drive the attainment of the vision.

</tr>
<tr>
<td><strong>Goal 2</strong></td>
</tr>
<tr>
<td><strong>Goal 3</strong></td>
</tr>
</tbody>
</table>

4. Do you want to list a fourth goal that will drive attainment of the vision?

Yes

4a. List Goal #4

The district will provide a secure, reliable high-speed network platform capable of providing network services efficiently.

5. Do you want to list a fifth goal that will drive attainment of the vision?

No
II. Strategic Technology Planning

6. Summarize the planning process used to develop answers to the Instructional Technology Plan questions and/or your district comprehensive instructional technology plan. Please include the stakeholder groups participating and the outcomes of the instructional technology plan development meetings.

The purpose of this three-year technology plan is to provide a roadmap for the advancement and use of technology and technology-related resources to improve and support high quality educational services. To achieve these goals we have formulated our vision to utilize technology integration in the district. This plan will provide a framework for making decisions and recommendations to improve technology’s impact on student achievement and our educators ability to harness technology in support of the vision laid out. Accordingly, a set of goals has been developed. By implementing our action plans we will achieve these goals.

The District Technology Committee will evaluate and revise the plan in accordance with changes in education requirements, technology improvements, and curriculum. We will be supported in this effort by a strong evaluation plan. In addition to the members of the technology committee, we will be communicating with parents, students, and educators to provide valuable input to the members of the technology committee.

The technology plan will be shared throughout our district and community using various methods. The public will be able to review the technology plan via our district website. The plan will be disseminated to all staff. Updates on different initiatives will be communicated at building faculty meetings and email distributions.

In addition, this plan has been completed to meet the following requirements or guidelines of the:
• Federal E-Rate program
• New York State Education Department (SED)
• Enhancing Education Through Technology (Title IID) Program
• Smart Schools Bond Act

7. Please describe the professional development plan for building the capacity of educators and administrators in the attainment of the instructional technology vision.

Staff development is an ongoing process that empowers teachers with the skills to utilize resources to the fullest extent possible. Some of these resources include the use of interactive training using technology, web-based instructional programs with online assessment with immediate feedback.

Some of the methods for faculty professional development include:

- **Superintendents Conference Days**
- **Conferences held outside of the district**
- **Workshops and Trainings provided in-district and outside of the district.**
- **One-to-one consults with Technology Instructional Specialist**
- **Faculty, Curriculum & Grade-Level Meetings**
- **Vendor-Provided Professional Development**
II. Strategic Technology Planning

8. How will the instructional technology goals be measured and evaluated during and after implementation? Be sure to include any tools or metrics that are part of this evaluation process.

Periodic evaluation of the tech plan will be instrumental to its long-term success. The evaluation process will monitor specific goals and objectives. The effectiveness of the action plans will be reviewed to ensure timelines are met. The results of the evaluations will allow for adjustments to be taken in response to technological advances and opportunities as they develop.

This technology plan will be formally reviewed every year by the technology committee and updated after each review as necessary. A comprehensive review and update will occur every three years. The District Technology Committee is responsible for the reviews and updates. In addition, the committee will reconvene if significant changes in the environment occur or if significant opportunities arise that warrant a review and update.

The evaluation process will seek to examine outcome-based measurements. For example, the evaluation may measure the amount of change in student achievement as a result of implementing a specific piece of technology, technological strategy, or system. It could also measure a change in technical workflows or skills. Possible tools may include, but are not limited to:

- Interviews and/or surveys with staff/stakeholders
- APPR observation results
- Graduation rate data
- NYS assessment results
- Faculty and student technology usage rates
- Curriculum revisions
- NYS School report card

The evaluation process will address, at a minimum, the following items:

- The frequency or reviews and updates to the technology plan
- The membership of the District Technology Committee
- The success of the technology plan in meeting the goals of the district
- Any unexpected outcomes or benefits to having the technology in place
- The goals and objectives that were unable to be met and ways to overcome these barriers
- The plan for meeting unrealized goals and objectives
- Other needs that may have emerged since the adoption of the plan
- Any goals or objectives that are no longer relevant to the district and that should be removed from the plan

In addition, the District Technology Committee will regularly consider the emergence of new developments in technology that can be included to improve educational services and student performance.

For help with completing the plan, please visit 2018-2021 ITP Resources for Districts, contact your district's RIC, or email edtech@nysed.gov.
### Section III - Action Plan

**Overview:** This section requires specific action steps that will be taken in order to achieve each of the goals presented in Section II of the plan. Each goal will have its own page in the plan. For this page, copy Goal #1, which you listed in Section II, Question 3, and respond to all questions below.

1. **Goal #1**

   The district will be implementing a technology standards-based curriculum K-12 that integrates with its current curriculum. It will be designed to supplement the current curriculum to ensure students learn the fundamentals of technology. Embedded in this process is the need for digital literacy, which will be a focus of the curriculum. The ISTE Standards will be used as the basis of this curriculum.

2. **Select the NYSED goal that best aligns with this district goal.**

   1. Develop a strategic vision and goals to support student achievement and engagement through the seamless integration of technology into teaching and learning

3. **Target Student Population(s). Check all that apply.**

   - [ ] All students
   - [ ] Pre-K-2
   - [ ] Grades 3-5/6
   - [ ] Middle School
   - [ ] High School
   - [ ] Students with Disabilities
   - [ ] ELL/MLLs
   - [ ] Migrant students
   - [ ] Homeless students
   - [ ] Economically disadvantaged students
   - [ ] Students between the ages of 18-21
   - [ ] Students who are targeted for dropout prevention or credit recovery programs
   - [ ] Other (please identify in Question 3a, below)

4. **List the action steps that correspond to Goal #1 from your answer to Question 1, above.**

<table>
<thead>
<tr>
<th>Action Step</th>
<th>Action Step - Description</th>

## Section III - Action Plan

Copy Goal #3, which you listed in Section II, Question 3, and respond to all questions below.

1. **Goal #3**

   The District shall provide adequate and equitable access to 21st century instructional tools for all students and staff, including but not limited to: computers, projectors, smart boards, document cameras, handheld devices, software, instructional video on demand, communication tools, enhanced district printing and e-learning environments.

2. **Select the NYSED goal that best aligns with this district goal.**

   3. Increase equitable access to high-quality digital resources and standards-based, technology-rich learning experiences

3. **Target Student Population(s)**

   - [ ] All students
   - [ ] Pre-K-2
   - [ ] Grades 3-5/6
   - [ ] Middle School
   - [ ] High School
   - [ ] Students with Disabilities
   - [ ] ELL/MLLs
   - [ ] Migrant students
   - [ ] Homeless students
   - [ ] Economically disadvantaged students
   - [ ] Students between the ages of 18-21
   - [ ] Students who are targeted for dropout prevention or credit recovery programs
   - [ ] Other (please identify in Question 3a, below)

4. **List the action steps that correspond to Goal #3 from your answer to Question 1, above.**

   | Action Step | Description | Responsible Stakeholder | If you selected 'Other' Responsible Stakeholder in the column to the left, please identify here. Otherwise, please write "N/A." | Anticipated month of completion | Anticipated year of completion | Anticipated Cost |
   |-------------|-------------|-------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------- Section III - Action Plan

Copy Goal #4, which you listed in Section II by responding "Yes" to Question 4, and respond to all questions below.

1. **Goal #4**

   The district will provide a secure, reliable high-speed network platform capable of providing network services efficiently.

2. **Select the NYSED goal that best aligns with this district goal.**

   4. Design, implement, and sustain a robust, secure network to ensure sufficient, reliable high-speed connectivity for learners, educators, and leaders.

3. **Target Student Population(s)**

   - All students
   - Pre-K-2
   - Grades 3-5/6
   - Middle School
   - High School
   - Students with Disabilities
   - ELL/MLLs
   - Migrant students
   - Homeless students
   - Economically disadvantaged students
   - Students between the ages of 18-21
   - Students who are targeted for dropout prevention or credit recovery programs
   - Other (please identify in Question 3a, below)

4. **List the action steps that correspond to Goal #4 from your answer to Question 1, above.**

Section IV - NYSED Initiatives Alignment

1. Explain how the district use of instructional technology will serve as a part of comprehensive and sustained effort to support rigorous academic standards attainment and performance improvement for students.

The district will increase access to laptops/chrome books and various software in collaboration with our increased technology curriculum in order to provide our students with 21st century skills necessary to graduate and enter the workplace as well rounded citizens. Staff will receive additional technology and the professional development needed to provide the students with this technological skill set to assist with our district goals. Ichabod Crane School District is committed to promoting technology literate students through various ways including, but not limited to:

- the purchase of digital instructional resources
- student software applications and subscriptions
- expanded access to hardware included laptops and chrome books
- expanded opportunities to internet access
- technology educational curriculum offerings
- elementary keyboarding benchmarks
- educating faculty and students on digital responsible products
- middle and high school student technology portfolios
- expanded opportunities for students to collaborate digitally

2. Students with disabilities may be served through the use of instructional technology as well as assistive technology devices and services to ensure access to and participation in the general curriculum. Describe how instruction is differentiated using technology to support the individualized learning needs of this student group.

The district serves students with disabilities utilizing instructional technologies that are specific to this student group. Students with special education services who have deficits in reading are utilizing Lexia Core5. It provides differentiated literacy instruction for students of all abilities in grades K–5. Lexia’s research-proven program provides explicit, systematic, personalized learning in the six areas of reading instruction, targeting skill gaps as they emerge, and providing teachers with the data and student-specific resources they need for individual or small-group instruction. Students with special education services at the Middle School and High School with deficits in reading utilize Proreader. This allows students to develop their decoding, fluency and comprehension skills in Reading. I-ready is used by teachers to pinpoint strengths and gaps for special education students in our self-contained, elementary class in Math. This program locates the right instructional resources based on the data collected from individual students. Teachers then provided targeted, differentiated instruction on those gaps.

Teachers differentiate instruction using technology in our self-contained and integrated co-teach classes K-12. Teachers are using Google Classroom to provide audio versions of books for students who are reading novels in middle school and high school. Special education teachers are providing instruction on using Dragon Dictation software and speech to text/text to speech options in Google to differentiate writing in high school Regents classes. Instruction is also focusing on using these accommodations for tests, including the English and Global Regents exams.

3. How does the district utilize technology to address the needs of Students with Disabilities to ensure equitable access to instruction, materials, and assessments? Check all that apply.

- Class lesson plans, materials, and assignment instructions are available to students and families for 'anytime, anywhere' access (such as through class website or learning management system).
- Direct instruction is recorded and provided for students to access asynchronously (such as through a learning management system or private online video channel).
- Technology is used to provide additional ways to access key content, such as providing videos or other visuals to supplement verbal or written instruction or content.
- Text to speech and/or speech to text software is utilized to provide increased support for comprehension of written or verbal language.
- Assistive technology is utilized.
- Technology is used to increase options for students to demonstrate knowledge and skill.
- Learning games and other interactive software are used to supplement instruction.
- Other (please identify in Question 3a, below)
4. Please select the professional development that will be offered to teachers of Students with Disabilities that will enable them to differentiate learning and to increase their student language and content learning with the use of technology. Check all that apply.

- Technology to support writers in the elementary classroom
- Technology to support writers in the secondary classroom
- Research, writing and technology in a digital world
- Enhancing children's vocabulary development with technology
- Reading strategies through technology for students with disabilities
- Choosing assistive technology for instructional purposes in the special education classroom
- Using technology to differentiate instruction in the special education classroom
- Using technology to increase options for students with disabilities to demonstrate their knowledge and skills
- Multiple ways of assessing student learning through technology
- Electronic communication and collaboration
- Promotion of model digital citizenship and responsibility
- Integrating technology and curriculum across core content areas
- Helping students with disabilities to connect with the world
- Other (please identify in Question 4a, below)

5. How does the district utilize technology to address the needs of English Language Learners/Multilingual Learners to ensure equitable access to instruction, materials, and assessments? Check all that apply.

- Class lesson plans, materials, and assignment instructions are available to students and families for 'anytime, anywhere' access (such as through class website or learning management system)
- Direct instruction is recorded and provided for students to access asynchronously (such as through a learning management system or private online video channel).
- Technology is used to provide additional ways to access key content, such as providing videos or other visuals to supplement verbal or written instruction or content.
- Text to speech and/or speech to text software is utilized to provide increased support for comprehension of written or verbal language.
- Home language dictionaries and translation programs are provided through technology.
- Hardware that supports ELL/MLL student learning, such as home-language keyboards, translation pens, and/or interactive whiteboards, is utilized.
- Technology is used to increase options for students to demonstrate knowledge and skill, such as through the creation of a product or recording of an oral response.
- Learning games and other interactive software are used to supplement instruction.
- Other (please identify, in Question 5a, below)

6. The district’s instructional technology plan addresses the needs of English Language Learners/Multilingual learners to ensure equitable access to instruction, materials, and assessments in multiple languages.

- Yes

6a. If Yes, check one.

- In the 10 most spoken languages in the district

6b. If 'Other' was selected in 6a, above, please explain here.

- N/A
IV. NYSED Initiatives Alignment

7. Please select the professional development that will be offered to teachers of English language learners/multilingual learners that will enable them to differentiate learning and to increase their student language and content learning with the use of technology. Check all that apply.

- Technology to support writers in the elementary classroom
- Technology to support writers in the Secondary classroom
- Research, writing and technology in a digital word
- Writing and technology workshop for teachers
- Enhancing Children's Vocabulary Development with technology
- Writer's workshop in the Bilingual classroom
- Reading strategies for English Language Learners
- Moving from learning letters to learning to read
- The power of technology to support language acquisition
- Using technology to differentiate instruction in the language classroom
- Multiple ways of assessing student learning through technology
- Electronic communication and collaboration
- Promotion and model digital citizenship and responsibility
- Integrating technology and curriculum across core content areas
- Web authoring tools
- Helping students connect with the world
- The interactive whiteboard and language learning
- Use camera for documentation
- Other (please identify in Question 7a, below)

8. How does the district use instructional technology to facilitate culturally-responsive instruction and learning environments?

- The district uses instructional technology to strengthen relationships and connections with families to assist in building a culturally responsive learning environment to enhance student learning.
- The district uses instructional technology to facilitate classroom projects that involve the community.
- The district uses instructional technology to develop and organize coherent and relevant units, lessons, and learning tasks that build upon students' cultural backgrounds and experiences.
- The district uses instructional technology to assist in varying teaching approaches to accommodate diverse learning styles and language proficiencies.
- The district uses instructional technology to enable students to communicate and collaborate with students in different schools or districts in New York State, the United States, or with different countries.
- The district uses instructional technology to facilitate collaborative classroom projects among heterogeneous student groups.
- The district does not use instructional technology to facilitate culturally responsive instruction.
- Other (please identify in Question 8a, below)

For help with completing the plan, please visit 2018-2021 ITP Resources for Districts, contact your district's RIC, or email edtech@nysed.gov.

**Totals:** 1,280,000
3. Has the school district provided for the loan of instructional computer hardware to students legally attending nonpublic schools pursuant to Education Law, section 754?
   Yes

4. Please indicate whether or not the district has a public website.
   The district has a public website.
   4a. Provide the URL of the district’s public website.
       http://www.ichabodcrane.org/

5. Please indicate whether or not the district has assigned a specific person with responsibility for Information Security.
   Yes
   5a. If ‘Yes’ was selected in Question 5 above, please identify the responsible person’s title.
       Director of Technology

6. Please indicate whether or not the district has assigned a specific person with responsibility for Information Privacy.
   Yes
   6a. If ‘Yes’ was selected in Question 6 above, please identify the responsible person’s title.
       Superintendent

7. Has a district-wide information security and/or privacy audit ever been performed in the district?
   No

8. Does the school district provide for educating minors about appropriate online behavior, including interacting with other individuals on social networking websites and in chat rooms?
   Yes

9. Does the school district provide for educating minors about cyberbullying awareness and response?
   Yes

10. Does the district have an Internet Safety Policy?
    Yes, and I will provide the URL to the policy.
    10b. Please provide the URL to the district’s Internet Safety Policy.
         http://www.ichabodcrane.org/POLICIES/4000/4526RComputerUseinInstructionandRegulation.pdf

11. Does the district have a Cyberbullying Policy?
    Yes, and I will provide the URL to the policy.
    11b. Please provide the URL to the district’s Cyberbullying Policy.
         http://www.ichabodcrane.org/POLICIES/4000/4526RComputerUseinInstructionandRegulation.pdf

12. Does the district have a Parents’ Bill of Rights for Data Privacy and Security?
    Yes, and I will provide the URL to the Parents’ Bill of Rights for Data Privacy and Security.
    12a. What year was the Parents’ Bill of Rights for Data Privacy and Security policy first posted?
         2014
V. Administrative Management Plan

12b. Please provide the URL to the district’s Parents’ Bill of Rights for Data Privacy and Security.

http://ichabodcrane.org/district/ParentsBillofRights.php

13. Does the district have an information breach policy that addresses the district’s planned response to an information breach?

Yes, and I will provide the URL to the policy.

13b. Please provide the URL to the policy that addresses the district’s planned response to an information breach.

14. Provide a direct link to the district’s technology plan as posted on the district’s website.

For help with completing the plan, please visit 2018-2021 ITP Resources for Districts, contact your district's RIC, or email edtech@nysed.gov.
Sharing Innovative Educational Technology Programs

1. Please choose one or more topics that reflect an innovative educational technology program that has been implemented for at least two years at a building or district level. Use 'Other' to share a category that is not on the list.

- [ ] Active Learning Spaces/Makerspaces
- [ ] Culturally Responsive Instruction with Technology
- [ ] Device Planning and Implementation (1:1; BYOD)
- [ ] Digital Citizenship
- [ ] Infrastructure
- [ ] OER and Digital Curriculum
