

High School Riders of the Month

MARCH 2025

#riderpride #ichabodcares

LIAM BETKE

Liam has a great attitude on the tennis court. He asks insightful questions and is a wonderful peer leader. He always volunteers to help his coaches.

JOSH KELLEY

Josh is a wonderful student who consistently volunteers in class which enriches our class discussions. His work ethic is top notch and his positive attitude is contagious.

VALERIA CRUZ

Valeria is consistently hardworking, positive and respectful to both peers and adults. She brings her best each day.

VICTORIA PAULIN

What I appreciate about Victoria is that she always wants to better herself. She is very creative and tries to come up with new ideas--whether in her writing, art, or photography. I also appreciate her smile and her willingness to participate in the classroom. She helps her friends, but she also helps peers she isn't as close with to reach the end goal.

DEREK FINN

Derek is a leader in our class. He regularly engages with his classmates to elevate group discussions and process complex information at a deeper level. He is humble and kind, while also bringing humor to our class.

ABIGAIL PÉREZ-GÓMEZ

Abigail is a hard worker, who consistently completes excellent work on time. She participates in class and is always on the ball. Abigail has consistently volunteered to take the roles with the most speaking while we read Macbeth. As a former ELL, she is braver about participating and reading aloud in class than her peers that are native English speakers, which I find very impressive. She also has a warm and kind persona and is a pleasure to see every class.

KYLIE BROWN

Kylie is a hardworking leader in the classroom and on the track. She cares about her teammates and classmates, helping them to learn new events and guiding their learning. She does a great job in Participatory Government showing both sides of issues and helping others to do the same.

CHASE MORRISON

Each day at lunch Chase makes time to talk to a student who roams the cafeteria just looking to talk to people. He stops what he is doing and gives this student his full attention. The student may talk to him for 5 minutes or up to 15 minutes, and he will still give this student his undivided attention. I can tell it makes this student happy and seen. It is truly nice to see this student be able to feel comfortable enough to approach Chase and not be ashamed or embarrassed.

Congrats!
