

Ichabod Crane Central School District

High School Riders of the Month

NOVEMBER 2025

#riderpride #ichabodcares

ANNABELLE PRESTIPINO

Annabelle is a great student who works hard, helps others and has a love of learning. Her American History trivia knowledge is impressive.

WILLIAM ALLEN

Will is a great addition to the High School. He is an exceptional student and is always willing to contribute in class.

JENNIFER LOYOLA

Jennifer is a hardworking, dependable student who always brings her best to algebra. She can always be counted on to have her homework, answer a question or laugh at her teacher's joke.

QUINCY ELLIS

Quinn is a tremendous addition to our class. She works hard and actively participates in class. However, what stands out the most is her efforts to help other students in our class. The students are not necessarily in her friend group, but she takes the time to explain work to other students and also pushes them to get their work done. She is just a really great kid!

KYLE STICKLES

Kyle Stickles works extremely hard in class. He takes his time on assignments and demonstrates deep thinking that shows a desire for learning and growth beyond just having something to turn in. He is focused and driven to succeed, even when faced with difficult content. His work ethic surpasses many of his classmates and demonstrates that hard work pays off.

KATELYN BROWN

Katelyn shows great class participation in Psych and makes a difference in class on a daily basis.

RANDALL ALBERTSON

Randall is an excellent selection for Rider of the Month. He is working hard in all of his classes and is a great contributor to class discussion.

Randall is always willing to help. He helps peers in school, he is a hardworking member of the Stage Crew, and volunteers outside of school with the Civil Air Patrol.

HANNAH HILBERT

Hannah is the kind of student every teacher hopes to have - motivated, kind, dependable, and constantly striving to better herself and those around her. This year, Hannah decided to go above and beyond and take an independent study math class while also taking a challenging course load in the New Visions Pathways to Education program.

Congrats!
